DIESEL FUEL COST PRICE ADJUSTMENT (SURCHARGE)

The following diesel fuel-related cost price adjustment (surcharge) will apply on charter transportation charges, as described below.

1. One the 25th day of each calendar month, the price per gallon of diesel fuel will be determined based on the price stated by the U.S. Department of Energy (DOE), Energy information Administration's (ELA) survey on "Retail On-highway Diesel Prices-West Coast Average." This price will be obtained by calling the DOE Fuel Hotline at (202) 586-6966 or via the DOE web site at www.eia.doe.gov
2. If the 25th day of the calendar month is a federal holiday, the price will be determined based on the State DOE price available on the next subsequent business day.
3. The DOE fuel price obtained will then be indexed based on the diesel fuel cost price adjustment factor matrix set forth in this item to determine the diesel fuel cost price adjustment that will become applicable on the 1st day of the month. The adjustment determined will apply for all transportation beginning on the 1st day of the following month and will remain in effect through the last day of that calendar month.
4. The resulting charge is in addition to all other applicable transportation charges.
5. The diesel fuel surcharge, if applicable for a given month, must be passed along to all charters.

The diesel fuel cost price adjustment will be shown separately from the charter revenue on carrier transportation documents to the purpose of identifying the amount as special fuel-related revenue.
